

Simplifying How Constituents Engage, Communicate And Collaborate With An Effective Mobile Solution

Seward County Community College provides its students with a convenient & consistent access to enterprise applications with Unified Mobile

Seward County Community College took a long-term view of its mobile strategy when it chose Unified Mobile. The solution offers a custom-branded SCCC mobile app for iOS and Android users; with out-of-the-box integration to Ellucian® Banner, Canvas® and Single-sign-on (SSO) to other enterprise applications, making information and campus resources easily accessible on the go.

"Well, developed. Has everything I need for SCCC with just a touch. Easy to enrol, and if you are an employee, there are some great features for you as well." said **Teresa Wehmeier, Institutional Research and Data Analyst at Seward County Community College.**

A complete mobile solution that integrates with Ellucian® Banner, Canvas® and other third-party applications; enabled with an effective targeted-messaging system; delivers an immersive user-experience to constituents, making it easier for them to stay on the top of their academic and extracurricular life on campus.

About SCCC

Seward County Community College is a two-year institution offering 45 programs of study, including Adult Basic Education, certificate programs and associate of arts, associate of science, general studies and applied sciences degrees. Ranked in the top 5% of more than 1,100 accredited community colleges in the U.S. by the Aspen Institute, SCCC serves a student body of 2,500+ students ranging in age from 15 to 85, in a county with the highest foreign-born percentage population in the U.S., and a rural service area of about 50,997 in seven Southwest Kansas counties and a five-state region.

Region:

Kansas Ave, Liberal, KS, USA

Solution:

Unified Mobile Digital Campus

Problem Statement:

Lacked an independent mobile app with institutional branding that integrates with Ellucian® Banner & Canvas®; enables the institution to communicate with its constituents & provides the self-service flexibility to add, remove and modify the app in real-time.

Solution:

Unified Mobile with institution-specific branding, out-of-the-box integration to Ellucian® Banner, Canvas® & other enterprise applications; and an ability to send push notifications to constituents. Equipped with a self-service mobile app development platform, administrators can add, remove or modify the app in real-time without writing a single-line-of-code.

Outcome:

The SCCC app now ensures an immersive user-experience on the custom-branded mobile application that provides constituents with a secure-access to Ellucian® Banner, Canvas® & other enterprise applications, making critical information easily accessible at one-go.

For staff constituents, it's a great means to track student-engagement, disseminate information and improve student success outcomes.

Less work, more flexibility:

Choosing Unified Mobile rather than building a mobile solution in-house has helped Seward avoid re-inventing the wheel. It has saved significant development effort and provided the constituents with an engaging mobile application that empowers their success.

The self-service mobile app development platform, Unified Studio has provided SCCC administrators with the flexibility to self-manage their app so that they can add, remove and modify their app to cater to their unique student engagement and digital transformation needs, without writing a single-line-of-code.

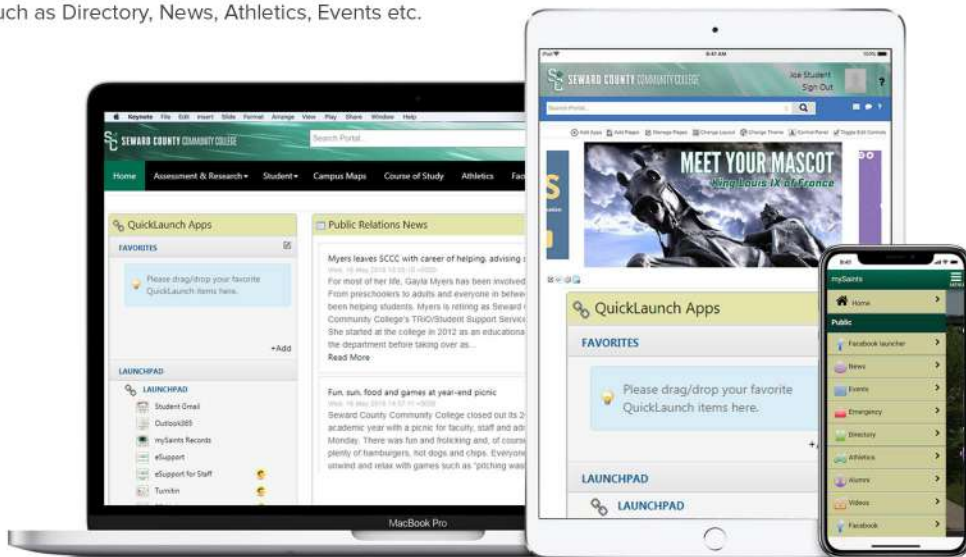

Business Outcome:

The mobile app has been a welcome addition to SCCC, constituents have readily adopted the new solution. It has ensured every student has access to necessary modules from Ellucian® Banner, Canvas® and student engagement apps such as Directory, News, Athletics, Events etc.

Testimonial

"I think facilities like Unified Mobile have put us ahead in the game, the app brings everything together in one place", said J.J. Widener, Chief Information Officer at Seward County Community College.
